SUMMARY

Computer Science and Information Technology student with professional experience in full-stack web development and production-level digital projects. Experienced in developing and troubleshooting applications using React, Next.js, Node.js, REST APIs, databases, and third-party integrations. Strong in problem-solving, technical communication, teamwork, and learning new technologies. President of Trinity Tech Face Club with additional experience in leadership, coordination, and organization. Seeking to apply my technical skills while developing broader experience in IT operations and enterprise technology systems.

EXPERIENCE

Full Stack Developer — Magnas Infotech Solutions *Feb 2026 — August 2026*

- Architected and developed the complete frontend for Empress Mode, a real-time e-commerce platform, including RESTful API integration, secure payment processing (eSewa, Khalti, Stripe), and WebSocket-based live order notifications.
- Built dynamic product discovery features — advanced filtering, trending/featured sections, and category browsing — alongside an AI-powered customer support chat assistant and automated invoice generation.
- Engineered a responsive, high-performance frontend for Techyversity, an EdTech platform for an Australian IT institute, with Email/Google OAuth login and role-based dashboards for Admins, Teachers, Students, and Interns.
- Integrated Stripe payments, Cloudinary media management, and a full CRUD control panel for blogs, FAQs, and automated notifications; connected Slack for intern project-sharing and Google Classroom for live class notifications.
- Currently developing a full-stack travel and tours platform (Next.js, GSAP, MongoDB) featuring scroll-triggered animations, real-time package availability, a custom itinerary builder, and an admin dashboard for bookings and analytics.

Frontend Intern — Rabbit Studios *Previous Role*

- Contributed to smaller-scale frontend projects, building UI components and supporting day-to-day development tasks.

PROJECTS

Empress Mode — Smart E-Commerce Platform — em.sangamshrestha007.com.np/

- Full-featured e-commerce platform with real-time order notifications, AI chat support, and multi-gateway payments (eSewa, Khalti, Stripe).

Techyversity — EdTech Platform — techyversity.com/

- Career-readiness platform for an Australian IT institute with student portal, OAuth login, multi-role dashboards, and Stripe payments.

Travel & Tours Platform (Kala Patthar) — travel.sangamshrestha007.com.np/

- SEO-optimized adventure travel site with GSAP scroll animations, real-time availability, itinerary builder, and booking management. Backend and admin dashboard currently in development.

TechVault — Tech E-Commerce Platform (Solo, Ongoing) — ecom.hritamatya.name.np/

- Building a full-stack e-commerce platform for a Nepal-based tech retailer using React, Tailwind CSS, NestJS, PostgreSQL, Prisma, Redis, and Cloudinary. Implemented JWT + Google OAuth, role-based admin dashboard, product/category/brand/offer management, and dynamic discount resolution. Solo project, currently in active development.

LEADERSHIP & CAMPUS ENGAGEMENT

President — Trinity Tech Face Club, Trinity International College | *Jan 2026 – Present*

- Lead planning and execution of IT-focused events, workshops, and student initiatives, coordinating members, speakers, participants, teachers, and other stakeholders.
- Organized major initiatives including Creative Hour Rush 2026, a 60-minute graphic design competition, and a panel discussion connecting students with industry professionals.

- Represent the club in external CSIT technology communities, building collaborations and knowledge-sharing opportunities while strengthening the club's professional and LinkedIn presence.
- Coordinate event logistics, permissions, communications, and student engagement to support smooth execution of club activities.

EDUCATION

Bachelor in Computer Science & Information Technology
Trinity International College, Kathmandu *Nov 2023 — Present*
